

Galina - Agrofreeze[®]
Fruits & Vegetables

I.Q.F Fruits & Vegetables
www.galina-eg.com

A word from the chairman

Galina-Agrofreez , a leading company In the field of agricultural productions, was founded In Egypt 2004 . One of the main reasons for the success and prosperity of this company is the fact that Egypt is blessed with fertile soil and its river: the Nile. In addition, the weather all year round is exemplary for the production of a variety of fruits and vegetables. The plethora of the crops planted has enriched our production line its array.

Since establishing Galina-Agrofreeze, we have been focusing on our clients' needs. We continuously upgrade our facilities to implement top technologies in the field employing the latest market trends. With the aid of our 24000tons production capacity, we are committed to produce quality products.

Due to the care we give to minute details along our production processes, Galina –Agrofreeze has managed to be the main supplier for the most prominent names in the industry. The fact that our customer base has been increasing over the years has not detained the company from sustaining is close and meticulous follow up, services and attention for each customer.

We recognize that our obligations go beyond our professional responsibilities. We value and respect each of our customers and are obligated o provide the national as well as the global community with the best services.

Do you know us?

Galina – Agrofreeze is specialized in the planting, processing and producing of vegetables and fruits. In the most modern state-of-the-art processing plant we deliver our promises to our partners worldwide. Providing our partners with the highest quality product in the right time all year round is our profession. The Company is fully dedicated to the export market as it covers about 95% of its production volume. Our location in Egypt, which is known for its moderate weather and rich soil, has given us the advantage of providing our partners with quality products that is not present in other parts of the world.

Due to our quality products, services and competitive prices, Galina-Agrofreeze has managed to be a main supplier for the most prominent names in the industry, national as well as multinational companies. Whether its jam and fruit yogurt producers, frozen vegetables re-packers, traders and retailer, Galina is a name many industries and partners rely on. With the aid of the strictest quality control measures, HACCP systems, Euro gap and a dedicated team, Galina has managed to be present in Europe, USA, Canada and Australia. In addition, the presence of our 3,000 tons cold stores capacity facilitated provision to our customers with their needs in the right time all year round.

With increasing globalization of the world's markets and awareness of international opportunities, Galina-Agrofreeze is now a main export of fruits and vegetables that are gaining increasing demands in the markets of other countries. This has helped in the dissemination of our products and international recognition in the international food industry.

Do you know our history?

Galina-Agrofreeze is a young processor and producer of fruits and vegetables but thanks to its founder Dr. Abdel Wahid Soliman and the unbridled dedication of all staff and the fast growing customer confidence, Galina-Agrofreeze has quickly become one of the most trusted players in the fruits and vegetables markets. Each year, around 20,000 tons of fruits and vegetables find their way to tables around the world. For more than seven years, Galina-Agrofreeze has been preserving the precious gifts of our mother nature. Year after year, one harvest after the other, we supply growing markets around the world with high quality fruits and vegetables.

Do you know the reasons for our success?

The love for our business, products and commitment to our customers has been the main impetus behind our success stories. Year after year, we sow, grow, harvest, process and export fruits and vegetables with ultimate care and dedication. Our main objective is to supply our customers with quality product all year round when it is not present anywhere in any part of the world.

Do you know our products?

Planted in the finest soils of Egypt and under our direct supervision we process our high quality vegetables and fruits according to our customer's specifications and standards.

Do you know our edge?

Quality control in the field:

After the selection of the right varieties and seeds, our in-house cultivation department is in charge of the entire follow-up of the growth and safety of the crops, it includes the use of fertilizers and pesticides which are our utmost priority.

Quality control in production:

After harvesting, processing is done using the highest techniques to obtain best flavour and maximum nutritional value. For this reason we have the most qualified production team to ensure that our targets are met.

Traceability:

The perfect traceability systems are in use, to make it possible to map the entire production ranging from planting and harvest to packing, we have the ability to know the cultivation history from our packed products.

Logistics and Delivery:

Thanks to our experienced logistics team we deliver your goods where you want in any part of the world, in the right time you expect it. Hence, enabling you the peace of mind to focus on your core business and we do the rest of the job all year round.
